MICHAEL MATONIS

Senior Software Developer

Self-motivated developer with over 10 years of professional experience in the Software Development Life Cycle. With a primary focus in web development, has led multiple development teams, championed cutting edge AI products, interface with clients, and guide direct reports in both front-end and back-end development.

EXPERIENCE

Salesforce — *Forward Deployed Engineer Senior Consultant*

October 2025 - PRESENT

Forward Deployed Engineering role providing a bridge between product and customer, enhancing adoption of cutting edge Salesforce AI tools.

- Accelerate adoption and consumption of Salesforce AI tools through SME-level knowledge and professional collaboration with customers
- Leverage direct feedback loop between product and the customer to enhance the customer experience and provide market insights to internal team

Salesforce — *Senior Technical Consultant*

February 2021 - October 2025

Senior Salesforce consulting role responsible for oversight of multiple direct reports and overall project well-being.

- Collaborate across multiple teams, lead daily meetings, estimate levels of effort, fine-tune acceptance criteria, conduct client-facing demos
- Provide guidance to development team, delegating tasks, communicating requirements, and conduct code reviews to ensure high quality code
- Facilitate technical interviews to strengthen team of in-house technical consultants

Acumen Solutions — *Technical Consultant*

June 2016 - February 2021

Salesforce consulting role working with multiple clients across numerous industries including hospitality, aviation, and payroll outsourcing

- Responsible for planning and building out custom features using LWC's, Aura Components, Visualforce pages, and Apex Classes
- Multiple titles including Software Developer, Technical Lead, Release Manager
- Internal Domain Lead role, responsible for guiding company-wide best practices related to Lightning Web Component development
- Organized and facilitated training workshops for client-side development team

EDUCATION

Ohio State University — *Bachelor's Degree*

August 2012 - May 2016

Graduated Magna Cum Laude with a B.S. in Computer Science Engineering
